service

1-2 tonnes

Perfect for small construction jobs including most maintenance applications.

Key features

The smallest ride-on rollers available. These compact and maneuverable rollers boast small turning circles to get you where you need to go, and fit on a trailer or small tilt tray for easy transport. All come with pressurised water sprinkler systems and drum scrapers. Offset drum available for curb applications and single drum vibration.

Applications

Ideal for compaction of road base and asphalt finishes. Best for applications with limited space including driveways, footpaths, garden sheds and other urban/inner city applications.

Operating Weight:	Overall Width:	Overall Height:	Overall Length:	Rolling Width:
1480–1730 kg	1015–1056 mm	2210–2604 mm	1970–2360 mm	800–1055 mm

2-3 tonnes

For small to medium-sized construction jobs including patchwork on asphalt.

Key features

Compact and maneuverable with a good turning circle, yet large enough for work on the construction site. All come with pressurised water sprinkler systems and drum scrapers. Offset drum available for curb applications, dual drum vibration and drive. Compact design for easy loading.

Applications

Ideal for compaction of road base and asphalt finishes. Best on small to medium-sized construction sites, driveways, footpaths, garden sheds and other urban/inner city repair work.

Operating Weight:	Overall Width:	Overall Height:	Overall Length:	Rolling Width:
2650–2940 kg	1129–1334 mm	2450–3000 mm	2400–2950 mm	1000–1250 mm

4-5 tonnes

A great all-rounder for construction and maintenance.

Key features

Great compaction performance. Our 4-5 tonne rollers are compact and maneuverable yet large enough to keep up with production on construction sites. All come with a pressurised water sprinkler system and spring-loaded drum scrapers. Offset drum available for curb applications, dual drum vibration and drive.

Applications

Compaction of sub grades, road base and asphalt finishes. Ideal for following a small asphalt paver on medium sized construction sites, roadways and driveways.

Operating Weight:	Overall Width:	Overall Height:	Overall Length:	Rolling Width:
4000–4950 kg	1341–1506 mm	2615–3050 mm	2400–3324 mm	1300–1430 mm

7-9 tonnes

For when it's important to keep up with incoming gravel, road base or asphalt.

Key features

Great compaction performance. Large enough to keep up with production on construction sites thanks to the larger diameter drums and high-frequency vibration settings. All come with pressurised water sprinkler system and spring-loaded drum scrapers. Offset drum available for curb applications, dual drum vibration and drive. Closed air-conditioned cabins available, ideal for civil works.

Applications

Ideal for compaction of sub grades, road base and asphalt finishes. Suitable for commercial applications and higher production jobs where it's important to keep up with incoming materials - for example, following an asphalt paver on roadways, construction sites, large parking areas or large driveways.

Operating Weight:	Overall Width:	Overall Height:	Overall Length:	Rolling Width:
6803–8200 kg	1341–2067 mm	2890–3300 mm	4300–4520 mm	1340–1815 mm

9-14 tonnes

Use these to finish off your roads ready for sealing.

Key features

Great compaction performance with high output for big jobs. Larger diameter drums and articulated steering. All come with a pressurised water sprinkler system and spring-loaded drum scrapers. Offset drum available for curb applications, dual drum vibration and drive. Closed air-conditioned cabins available, ideal for civil works.

Applications

Ideal for compaction of sub grades, road base, foam-stabilised pavements and asphalt finishes on large jobs. Suitable for commercial applications and higher production jobs where it's important to keep up with incoming materials - for example, local transport construction on major road projects and highways including both residential and industrial areas.

Operating Weight:	Overall Width:	Overall Height:	Overall Length:	Rolling Width:
9470–13150 kg	1800–2145 mm	3000–3300 mm	4610–5620 mm	680–1980 mm
